

DAMPS-A Approval Process: WTU/CBWTU Cadre applicants utilize DAMPS-A to track and receive approval for specific position

Point of Contact

Division: Office of the Chief Surgeon (Division) (ARNG-CSG)

Description

After the Soldier has completed his/her DAMPS-A packet, the Soldier is able to track the DAMPS-A approval process as the packet goes through the chain of command. Soldiers can view the chain of command in their packet, and if necessary, contact personnel involved in the approval chain.

DAMPS-A is an unclassified web application developed by G-3/5/7, DAMO-ODM, to initiate, track, and approve reserve component (RC) volunteer packet requests for contingency active duty for operational support (CO-ADOS) tours.

DAMPS-A allows RC soldiers and force requestors to submit packets on-line. Information is digitally extracted from authoritative databases to complete required data personnel fields then submitted electronically for command endorsement. Endorsed requests are then transferred into DAMPS-S for HQDA approval.
